Student Professionalism Starts Here

STUDENT INTERNSHIP TOOLKIT

SAN DIEGO STATE UNIVERSITY
Career Services
Division of Student Affairs
Internships are high impact practices that allow students to develop professionalism and learn how to apply the knowledge needed to transition successfully into the workplace. Internships are hands-on, experiential opportunities that bridge your academic work with an industry or field in the professional world.

The difference between a part-time job and an internship is that an internship allows you to use your academic knowledge to complete a specific project and/or task. For example, if I am a Marketing major and I work in the SDSU Bookstore as a cashier, I am not specifically using my academic knowledge in that job.

However, if I am working part-time in the SDSU Bookstore with the Marketing Director to develop a social media campaign or design the window display, then I am applying my academic knowledge. Both of these could be part time jobs, but only the second example would be considered an internship since I am applying my academic knowledge in a professional setting.

San Diego State University recognizes the National Association of Colleges and Employers (NACE) internship definition. An internship is a form of experiential learning that integrates knowledge and theory learned in the classroom with practical application and skills development in a professional setting. Internships give students the opportunity to gain valuable applied experience and make connections in professional fields they are considering for career paths; and give employers the opportunity to guide and evaluate talent.
Internships vary according to tasks, work time, and compensation. Standard internships usually require 10 to 20 hours weekly during the semester (10-16 weeks), and up to 40 hours per week in the summer (6-12 weeks).

Compensation possibilities can include hourly pay, class credit, or a stipend. Compensation is commonly $10.50-$14 per hour for undergraduate students and $18-$25 per hour for graduate students based on experience and industry/field. *Please note that all unpaid internships require a student to enroll in an internship course to receive academic credit. Speak with your Department Internship Contact to find the course for your major: goo.gl/Jwnfyw*

To qualify as an internship, an experience must include professional experience, and therefore internships are not primarily unskilled or clerical in nature. An internship experience needs to relate to your academic work and have learning outcomes that are set by and achieved under the guidance of a supervisor.
Academic Credit Internships
- Students completing an academic internship are enrolled in an internship course and may be paid or unpaid**.
- **Unpaid MUST be taken for academic credit if the organization is a FOR-PROFIT. Only unpaid internships at recognized 501-c3 NON-PROFIT organizations can be completed without an academic course, as this is considered volunteering.
- Paid and unpaid internships qualify for academic credit. For more information on academic credit for internships, contact your Department Internship Contact by going to goo.gl/g5bV2K.

Paid Internships
- An internship is considered paid when an intern earns at least minimum wage per hour worked or a stipend that is equivalent.
- Students completing a paid internship can also receive academic credit. For more information on academic credit for internships, contact your Department: goo.gl/g5bV2K.

International Internships
- Go to Aztecs Abroad: goo.gl/mCqJQR
