

SDSU CAREER SERVICES EMPLOYER PARTNERSHIP PROGRAM 2018-2019

What is the value of being an Employer Partner of SDSU Career Services?

By joining the Employer Partnership Program your organization can develop a strong brand at SDSU resulting in a sustainable pipeline of diverse talent that will benefit your organization's recruiting needs. Our center works with your organization to maximize the impact of campus outreach, increase visibility and access to students, and to provide consultation with Career Services staff, university faculty and administrators.

What do the levels of Partnership include?

We are confident, the SDSU Career Services' Employer Partnership Program has levels that are tailored to meet your branding and recruitment needs. The Program consists of 3 levels all designed to provide a strategic recruiting advantage for your organization, specialized events, and targeted outreach across multiple media outlets. All organizations are different and all our partners receive customized expert recruitment consultations to ensure we meet your recruiting needs. See below for details.

Why should your organization become a Partner?

Our program is designed to meet your changing needs. We work with you to access the diverse and career-ready talent of SDSU students and alumni.

We cordially invite you to join the re-envisioned SDSU Career Services' Employer Partnership Program. All partnerships are accepted on an open enrollment basis and extend for a 12-month period. For information on how your company may become a Partner or lend support to another SDSU program or fund, please send an email to Chris Turntine, Associate Director, Employer Services and Campus Planning at SDSU Career Services, or call (619) 594-4382.
