Introduction

The primary purpose of this document is to clarify the strategic themes, goals and plans for the Division of Student Affairs from 2013 to 2015. The Strategic Plan consists of three main sections. The first section includes the Mission, Vision and Values statements that form the foundation of this plan. Each statement was modified from an earlier version as a part of the strategic plan development process that took place during the months of July and August, and included planning sessions with senior leadership as well as the Assistant Deans and Directors. The planning process also included several individuals outside of Student Affairs:

- Dr Sandra Cook, Associate Vice President for Academic Affairs
- Dr. Geoffrey Chase, Dean of Undergraduate Studies
- Robert Schultz, Associate Vice President for Business and Financial Affairs
- Jim Herrick, Assistant Vice President, University Relations and Development

The second section includes the strategic themes and a list of the SMART goals that will represent the focus of the Division’s activities over the next two years. The last section includes a comprehensive action plan that describes the specific steps, key participants and completion dates needed to achieve each goal.
