Earn Your Masters in Learning Design & Technology
San Diego State University’s Blended Learning Graduate Program

Our program is right for you if you’re looking for:
- **Real projects, real clients, and real opportunities** for consulting with corporate, non-profit, government and education organizations—which you earn a graduate degree.
- A career where there are **more job opportunities than qualified candidates**.

Our graduates hold positions in San Diego and worldwide - Qualcomm, Ernst & Young, Sony Computer Entertainment, Twitter, UCLA, San Diego Zoo Global, museums, libraries, schools, military, local government, and more.

We know what we’re doing. The Learning Design & Technology program at SDSU, established over 30 years ago, is recognized throughout the world. Since 1996, we’ve been offering courses that combine face-to-face and online learning components. Our courses are challenging, interesting and practical. You’ll learn:

- **Cutting-edge Technologies** that help people learn and perform in the workplace.
- **Course Design** for online or face-to-face instruction and performance support applicable to any field and organization.
- **Consulting Skills** through practice with real organizations, real projects, and examination of real results.
- **Game Design** for instructional games and simulations that are fun and effective.
- **Social Media** to support learning and collaboration in organizations.
- **Evaluation Techniques** to demonstrate the impact of the programs and materials you create.

Now Accepting Applications for Fall 2014
- Apply to CSU-Mentor by March 1, 2014
- Take two courses per semester
- Graduate in May 2016

Program Features:
- **Blended approach**: face-to-face time with faculty and peers, as well as online components that can be completed anytime, anywhere.
- A total of **30 units**—or 10 three-unit classes; take six units per semester and one summer, then **graduate within two years**.
- **Hands-on assignments** that are project-based—we practice what we preach!
- **Close alignment with your career goals**—you’ll make contacts and practice consulting, with professionals in the field in every course.
- More **cost-effective** than any other quality program in California—and qualifies for both State and Federal Financial Aid programs.
